

Shayla Prabhu Singh

Product Designer | Healthcare, Fintech & SaaS | Startup Experience

New York, NY | +1 914-987-8295 | shaylaprabhusingh@gmail.com | shaylasingh.com | [LinkedIn](#)

Product Designer with **4+ years of experience shipping B2B and B2C products across healthcare, fintech, and early-stage startups**. Skilled in product thinking, UX design, user research, AI-assisted workflows, and data-driven decision-making. Strong collaborator with engineering and product teams, with a focus on accessibility-first design.

EXPERIENCE

Product Design Consultant, [Center for Digital Experiences](#)

New York, NY · Feb 2025 – Present

- **Center for Urban Research, CUNY** — Improved data interpretation and enabled **30% faster identification of at-risk populations** by redesigning CUNY's Hard-to-Count mapping platform for Census 2030, simplifying unstructured census data workflows and delivering an accessible interface for nationwide outreach planning.
- **WebMD** — **Improved task success rate by 25%** by leading usability testing and redesign of WebMD's employee wellness platform, identifying navigation barriers and restructuring information architecture to reduce user friction.

Product Designer, [Subscribili Inc.](#)

New York, NY · Jun 2025 – Aug 2025

- Redesigned onboarding flows across partner websites **servicing 500+ DSO practices** by building scalable UI systems and streamlining key conversion steps.
- **Improved task completion rates by 38%** in invoice tracking and generation workflows by redesigning the Flex PulsePay B2B fintech dashboard, improving usability and accessibility through collaboration with engineering teams.

Founding Product Designer, [ERBuddy Inc.](#)

New York, NY · Sep 2022 – Aug 2024

- **Raised medication adherence by 80%** by leading end-to-end UX design for a healthcare app serving seniors and caregivers, using usability testing and iterative design to simplify medication tracking and care coordination.
- **Expanded product market opportunities into pediatric and oncology care segments by** identifying and validating new use cases through research to refine product-market fit.

Design Manager, [Maven Lifecare Technologies – Curer](#)

New Delhi, IN · Sep 2020 – Aug 2022

- **Contributed to securing \$500K in seed funding** by developing a design-led product strategy and investor-ready product narratives that clarified the product vision and differentiated Curer's value proposition.
- **Owned UX design for a nationwide remote patient monitoring system**, rapidly building workflows that enabled seamless patient-clinician matching and communication during peak pandemic demand.
